GLADIOLUS

READ THIS BEFORE ORDERING

We use the greatest possible care in keeping our stock true to name, and will replace free, or refund your money, on any stock that proves otherwise. However, we do not guarantee the growth or germination of bulblets, as this depends on how they are handled by the buyer. Our Glads are always grown on soil that has never had bulbs grown on it before, and by this method insure the fact of having all stock healthy, vigorous and as true to name as stock can be grown.

SUBSTITUTION

If the size of the bulb ordered is sold out, we will send the value of your order in the next smaller size, unless you request us not to do so. We never substitute one variety for another without your consent. If we are out of a variety ordered and you have given no second choice, your money will be refunded.

Early orders prevent to a great degree substitutions and disappointments.
